About National Theatre Wales

National Theatre Wales is set to create bold, invigorating theatre in the English language, rooted in Wales, with an international reach.

Engaged

We aim to engage and involve you in surprising ways and unexpected places. We are building strong relationships with theatre makers, creative talents, participants and audiences in and beyond Wales. Everyone can be part of the National Theatre Wales community at nationaltheatrewales.org/community

Innovative

We will open up new possibilities in theatre, identifying topical issues and expressing them in surprising and imaginative ways. We are collaborating with a wide variety of artists and finding new ways for audiences to be part of

our work. We will strive to be pioneering in the work we make and the way we make it.

International

National Theatre Wales will bring directors and companies from across the world to work with Welsh artists, actors and participants, creating new languages of theatre. We will make links with key festivals and venues to present Welsh work internationally. We will partner with other 'small countries with big neighbours' and places where we share connections, stories and ambitions. National Theatre Wales will always aim to create work that is of international standard in its aesthetics and execution.
